

- Competitive price and performance ratio
- Declared ambient temperature operation field i.e. 40, 50 & 60
- Only one product for 230-400-500V AC
- Standards: EN 60204-1, EN 60529 (IP 20 protection)
- Din Rail mounting.
- Small size.
- Output voltage: 5, 12, 24, 48V DC.
- Protection: Short circuit/over voltage /overload
- Power o/p: (a) Phase 1: 40W to 60W for 24V DC (b) Phase 2: 24W to 300W for 24V DC (c) Phase 3: 24W to 600W for 24V DC
- Efficiency: - 50% of rated current

- Available type: AC, DC, Current and Voltage, frequency, temperature
- 1ph, 3ph programmable DPM
- Universal aux. supply

- Enclosure protection for dust & water
- EMC compatibility
- TRMS Measurement
- 4 digit ultra bright LED display

- 5 in 1 device (analyzer + transducer + recorder + controller + web server)
- Measures power quality parameters according to EN50160
- Configuration of time and event archives.
- Harmonics measurement up to 51st
- Measure current is Neutral line
- Tetra quadrantic energy measurement
- LCD Touch screen user interface

Accessory- RS485 to 232 Converter

Accessory- RS485 - USB Converter

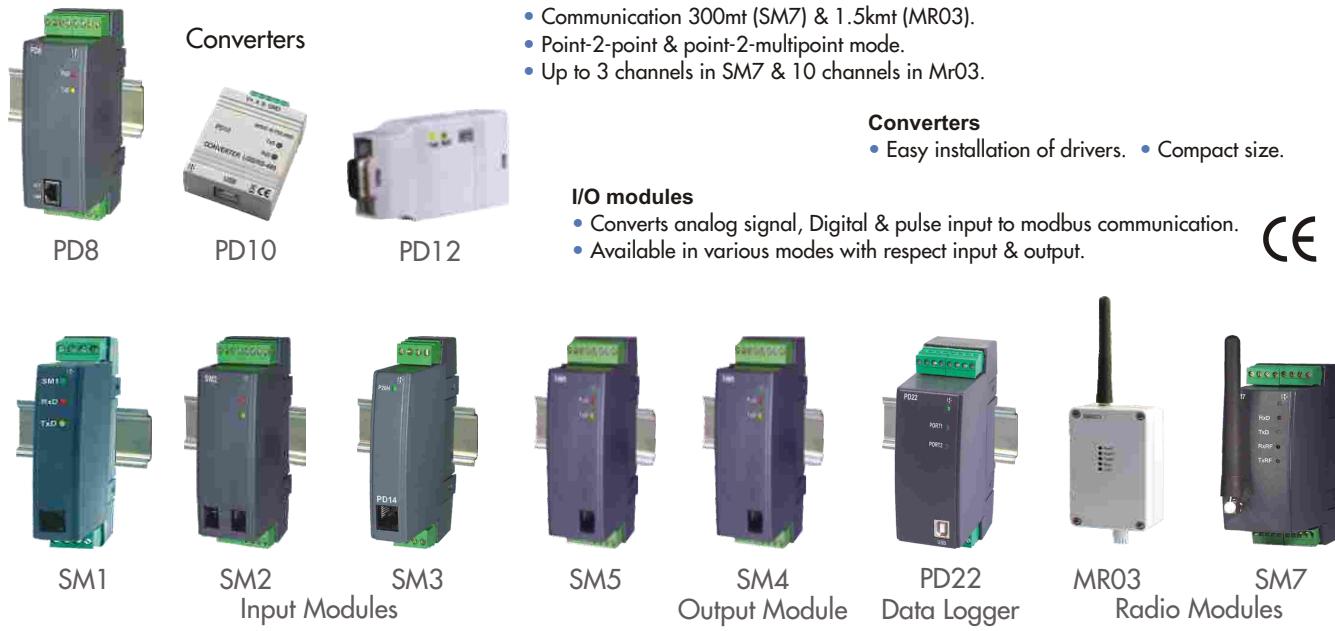

- Wide Input (100-500 V LL programmable)
- Universal aux supply (40-300V AC DC Aux.)
- Click fit arrangement

- Measure more than 61 parameters including V,I,Hz,kW,kVAR,THD ect
- Four function keys enable instant access to the desired parameter screen
- Optional outputs: analog, pulse and RS 485
- RISH EMS – Energy Management System

- Auto tuning function
- Smart control in difficult situation
- Soft start function
- Bump less transfer between manual and auto mode
- Password protection
- Basic series - RE22, RE55, RE60, RE71, RE81
- Advance series - RE19, RE72, RE82
- Injection moulding - SR11

Radio Modules

- Communication 300mt (SM7) & 1.5kmt (MR03).
- Point-2-point & point-2-multipoint mode.
- Up to 3 channels in SM7 & 10 channels in MR03.

Converters

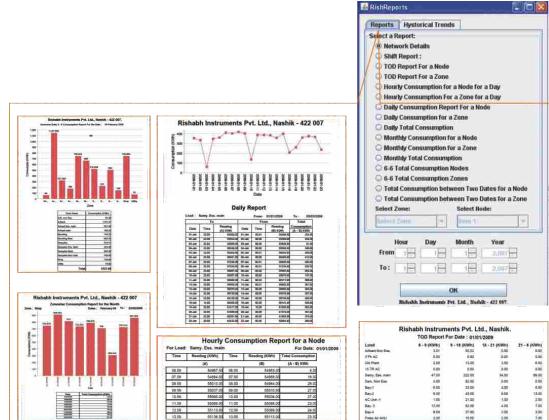

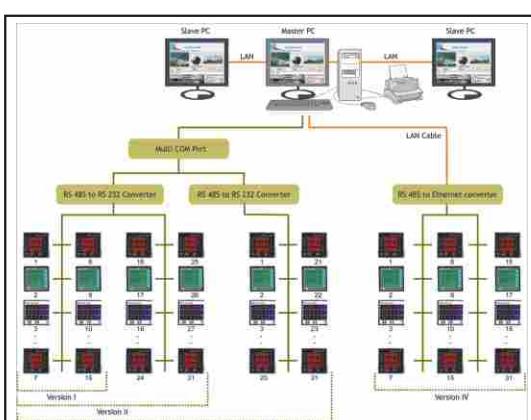

- Easy installation of drivers.
- Compact size.

I/O modules

- Converts analog signal, Digital & pulse input to modbus communication.
- Available in various modes with respect input & output.

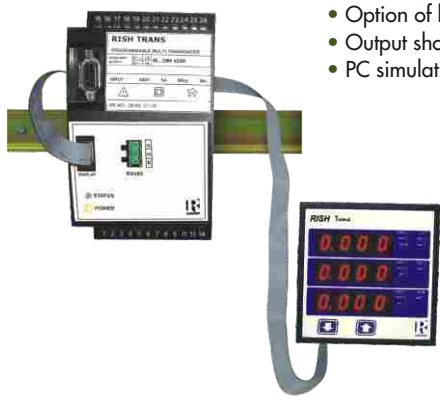

- Plug & play enterprise level SCADA product.
- Multi user login, password protection for data aquisition.
- Online mounting for all the feeders.
- Auto mailing facility of generated reports.
- Reports in different formats i.e. PDF, EXCEL, WORD, TEXT etc.
- Customised screens and reports.

- Type: Current and Voltage Transducers with single, multiple input-output
- 1/3ph, 2/3/4 wire, programmable multi transducers
- Meets requirements of international standard IEC688 for accuracy

- Insulation level of 3.7kV/4kV
- Electrical Isolation between all transducer connections
- Option of bent transformation characteristics
- Output short circuit & open circuit proof
- PC simulation

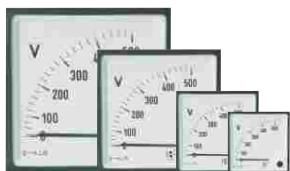

Multifunction Transducer with Modbus and Analog output Rish Trans

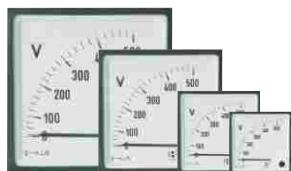

SMC
Programmable Logic Control

- Programmable according to IEC61131-3
- Communicates with I/O modules via RS485 & modbus protocol.

RISH Vista Series

- Glass filled polycarbonate housing (UL 94 V-0)
- Easy and quick Interchangeable scale
- Unique mounting system with easy replacement of glass and bezel
- Knife edge pointer
- Available Sizes: 48, 72, 96, 144 Sqm

- Applicable Standard: IEC / EN 60044-1, BS 3938, IS 2705-1
- Type: Wound Primary, Busbar Type, Tape Wound, Protection Type, Spilt Core.
- Accuracy Class: 0.2, 0.2S for laboratory and power measurement.
0.5, 0.5S for accurate measuring, kWh
1 for general measurement
3 for Indicating Instruments
- System Voltage: 720V maximum
- Rated Primary Rating: 1A to 7500A
- Rated secondary output: 5A standard (1A on request)
- Cost effective molded case current transformer.
- Various mounting options.
- Wire sealable terminal covers.
- Glass filled polycarbonate housing (UL 94 V-0)
- Supplied with accredited test certificates

CE GOST

- Unique design patented by RISHABH
- Large jaw opening with 180° rotation to avoid difficult measuring positions
- Narrow housing for firm grip and easy to carry
- High accuracy for low current measurement
- Null zero correction for resistance and capacitance
- Analog scale and auto power OFF

CE GOST

- Broad measuring range from 10KW to 1TW
- Easy to ready logarithmic display
- voltage measurement to 100V to 5000V
- Hands free continuity testing
